NATIONAL HISTORICAL PUBLICATIONS & RECORDS COMMISSION

Grant Number 79-124

PROVENANCE AND SCOPE AND CONTENT NOTE:

The Biographies Collection consists of seven cubic feet of biographical data concerning Staten Islanders and historic people who lived on or were associated with Staten Island.

The majority of these materials were collected by William T. Davis and Charles W. Leng and are associated with their effort to compile and publish a history of Staten Island.

Biographies of important personages for whom the Archives maintains a separate collection will be found in the individual collection with the exception of Crooke, Skinner, and Sanderson Smith. The biographical information from these three collections has been cross-referenced in the Biographies Collections.

The collection includes letters and correspondence, memorials and clippings. The inclusive dates are 1851-1980.

The collection is arranged alphabetically by name of person. Where available, the birth and death dates are recorded.
